Bonus Terms and Conditions

If you have any questions about the bonus terms and conditions, please contact casino client support. Some bonuses may have their own conditions that differ from present rules. In this case, preference is given to the own rules and conditions of such bonuses.

1. **General Bonus Terms and Conditions**

1.1. Each currency available in the Casino has its own established equivalent in relation to other available currency. This equivalent is taken into account when betting, making deposits and receiving prizes, unless otherwise indicated.

1.2. The minimum deposit to receive any bonus is equal to 20 EUR or the minimum deposit of the payment system, in case its value exceeds 20 EUR.

1.3. In terms of bonuses and promotions, the time is indicated in UTC (Coordinated Universal Time).

1.4. A player can receive or activate only one bonus at a time. Bonuses that give bonus money depending on the amount of the deposit are not combined with each other.

1.5. The player independently activates the selected bonus by subscribing to it, and can also cancel the activated bonus at any time, in which case the bonus and winnings are debited from the player's account.

1.6. After receiving a bonus, the player first uses the real balance, if the player runs out of real balance, he starts using the bonus balance. The funds received for winnings are credited to the player's bonus balance. In order for the bonus funds to transfer to the real balance and be available for withdrawal, the player must win back the bonus funds available to him.

1.7. One player cannot receive the same bonus more than once. One player is defined as the same account, email address, phone number, payer ID, IBAN, IP address, IP address of the last login.

1.8. The maximum withdrawal amount during the bonus wagering process is equal to the maximum withdrawal limited in the main part of Terms and Conditions.

1.9. The Casino reserves the right to change the bonus terms and conditions as necessary at any time without notifying the players.

1.10. Bonus terms and Conditions are primarily created and published in English. The translation of the rules is carried out by qualified employees. However, in case of any discrepancies between the English version of the rules and the version in another language, preference is given to the English version.

1.11. In case of disputes, the final decision is made by the regulatory authority.

1.12. The received bonuses are valid for 30 days, unless otherwise specified, and are canceled if they are not wagered according to the bonus terms and conditions during this period.

1.13. No deposit bonuses are not available for players from Russia, Ukraine, Poland and Turkey.

2. **Wagering of deposit bonuses**

2.1. The 1st, 2nd and 3rd deposit bonus must be wagered 25 times for the amount of the bonus and deposit, and the regular deposit bonus (starting from the 4th deposit)

must be wagered 20 times for the amount of the bonus and deposit before the player can withdraw winnings, unless otherwise specified. If a player requests a withdrawal before the wagering requirements are met, the bonus and winnings will be canceled.

2.2 The welcome bonus is credited in 10 equal shares to the player's account. The first part is credited to the bonus account after making the first deposit. Subsequent parts are credited to the player's bonus account as the wagering requirements are met.

Example:

A player deposits $200 and receives a 100% welcome bonus. As a result, the player's account turns out to be $200 + $20 ($200/10 parts = $20). He will receive the next part in the amount of $20 only when he fulfills the wagering conditions for the first part of the welcome bonus.

The total wagering is calculated according to the following formula:

(200+200)*25 = 10000$

The first part of the bonus – $ 20 you get immediately, the second part you receive after you fulfill the wagering conditions of the first part: (($200+$200)*25/10) = $1000, where:

25 – wagering amount

10 – 10% of the wagering amount

2.3 If the player has run out of balance, he has the opportunity to continue wagering the bonus to receive the remaining parts or to refuse this opportunity. To do this, the player needs to replenish his balance, without choosing a new bonus, and continue to win back the activated bonus. In this case, the player refuses the bonus for the next deposit.

2.4. When using the deposit bonus, real money is primarily wagered from the player's account and only then the bonus money is used. Wagering is counted primarily from the real balance, and if the player's real balance is 0, wagering proceeds from the bonus balance.

2.5. The Player has the right to cancel the activated bonus independently.

2.6. If the bonus is issued in parts, the bonus will be available for withdrawal after wagering all parts of the bonus.

2.7. If the bonus wagering requirements are not met during the bonus period, the bonus money and winnings will be debited from the player's balance.

2.8. Games where bonus wagering is prohibited will be unavailable if the player has an active bonus.

2.9. List of games prohibited for wagering bonus funds: Dead or Alive 2 (NetEnt), Logic Bandits (Stakelogic), Thunder Link (Stakelogic), Hellcatraz (Relax Gaming), 5 Families (Red Tiger Gaming), Baker's Treat, Baker's Treat (Play'n Go), Castle Builder II (Microgaming), Cool Buck – 5 Reel (Microgaming), Jammin' Jars 2 (Pushgaming), Lucky Clucks (Microgaming), Marching Legions (Relax Gaming), Peek-a-Boo – 5 Reel (Microgaming), Sugar Pop (BetSoft), Sugar Pop 2 (BetSoft).

2.10. Wagering of bonus funds and free rounds is allowed only in slots, unless otherwise specified.

2.11. Bonuses are intended for recreational players, for additional playing time and getting additional pleasure from the game. Any actions that may give the player an advantage over the casino, such as postponing bonus rounds or other provider bugs for which the casino cannot be held responsible, are prohibited. If this is detected, you must immediately contact the support service.

5.3. A certain number of retention points is indicated at each level, if the player does not score a certain number of retention points, the player's level is reduced to the previous one, if the player is not on a safe level. For example, a player moves from 21 to 22. The number of

retention points at level 22 is 564. This means that for the next 30 days the player has level 22 and during these 30 days the player must receive 564 experience points. If the required amount is not reached in 30 days, the player from the 22nd level drops to 21 and continues to play to earn 564 points for the next 30 days.
